DETAILED ACTION
Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14 and 22-25, drawn to an infant or follow on formula.

Group II, claim(s) 15-17, drawn to a method of promoting physical development of an infant or child.

Group III, claim(s) 18 and 19, drawn to a method of improving gastro-intestinal comfort of an infant or child.

Group IV, claim(s) 20 and 21, drawn to a method of developing a healthy gut microflora in an infant or child.

The inventions listed as Groups I, II, III, and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the single general concept linking the groups is a composition comprising proteins, lipids, carbohydrates, and a probiotic, wherein at least 40% of the proteins are modified sweet whey proteins comprising no CGMP. The single general concept linking the groups is not a special technical feature as it is not an inventive concept; Fuchs et al (WO 02/15719) teaches of a nutritional composition comprising proteins, lipids, carbohydrates, and a probiotic, wherein at least 50%, including 100%, of the protein is a modified sweet whey protein and is not other suitable protein, including CGMP (Abstract, page 6 lines 7-10 and page 7 lines 11-27).

A telephone call was made to Robert Barrett on March 4, 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
